FOR SALOON AND ESTATE

UP TO MODEL YEAR 2000

OPEL  LINE

# OMEGA

UP TO MODEL YEAR 2000

## THE PREMIER CLASS

Perfect Styling, Fascinating Technology.

The Omega has a well deserved reputation as one of the most stylish and comprehensively equipped cars on the road today. The OPEL i LINE range of high quality accessories enables you to build on Omega's core strengths of quality, safety, and comfort to create a car that perfectly matches your individual style.

The objective of the development of the Omega body parts is to increase the aerodynamic efficiency and to give the modern design of the vehicle an individual touch.

The rear spoiler with integrated brake light, sets off the rear of the vehicle and adds to the visual safety.

The result: a perfectly styled car for the highest demands of technology, safety and design.

*Front airdam i 40 01 001,  
light alloy wheels in Softstar design.*

*Light alloy wheel in Spectra Sports Line design in the dimension 7<sup>1</sup>/<sub>2</sub>x17.*

*Central cover for wheel hub i 61 10 217 for Spectra Sports Line light alloy wheel.*

*OPEL i LINE locking wheel bolts i 61 10 118 for effective protection of your high quality light alloy wheels against theft.*

*Covers caps (4 pieces) for locking wheel bolts, silver i 61 10 123 or black i 61 10 122.*

# Omega Estate.

The exclusive components of the OPEL i LINE product range provide the perfect answer for the Omega driver who wishes to modify the practical, spacious Omega Estate into a more sporty elegant vehicle.

For the front of the vehicle, the OPEL i LINE front airdam

*An elegant  
bodyline with  
OPEL i LINE  
body parts.*

with integrated radiator grille and fog lamps, compliments the Omega's bodyline and enables the front to appear lower and more dynamic.

For the side of the Omega Estate, side mouldings and side sills continue the sporty dynamic

theme, and for the rear, the specially designed rear skirt, and roof spoiler with brake light completes the OPEL i LINE styling concept for the Omega Estate.

The chromium-plated rear silencer with rectangular twin tail pipes, minimizes back pressure and

slightly increases performance. The product is extremely durable by using high quality material and accentuates the rear of the vehicle.

*The OPEL i LINE rear silencer  
accentuates the rear of the vehicle.*

*Rear skirt  
i 40 01 452,  
Roofspoiler i 40 01 404  
with integrated 3<sup>rd</sup> brake light,  
rear silencer i 40 08 002/004.*

Front airdam i 40 01 001,  
side sills i 40 01 301/310 and side  
impact mouldings i 40 01 305/355.

An OPEL i LINE complete suspension package is produced for each Omega model, and helps to improve road holding by lowering the vehicle to provide additional handling characteristics during cornering, accelerating and braking.

*The OPEL i LINE suspension kit will help to improve road holding and driving pleasure.*
